

HOME SWEET HOME: ADVANCED BED BUG PROTECTION YOU AND YOUR TENANTS CAN TRUST

BED BUGS: two words that can create an uproar for multi-family properties and their tenants.

It is nearly impossible to prevent these blood-sucking, hitchhiking pests from being introduced to your property. Once there, they hide in the smallest cracks and crevices, emerging to bite unsuspecting residents, often at night. Worse, they can quickly spread from unit to unit, resulting in unhappy tenants and costly remediation efforts.

Your best defense is to have a bed bug plan in place. With Rentokil, you have more than a plan. You get a dedicated partner committed to a rapid response and ongoing protection that keeps working long after treatment, all backed by an unmatched industry-leading warranty.

BED BUG FACTS & FIGURES

A female bed bug can lay between 200 and 500 eggs in her lifetime.

Bed bugs can live for an average of 316 days under optimal conditions.

In 2018, a California judge awarded \$1.6 million to a family who suffered a lengthy bed bug infestation in their apartment.

ELIMINATE BED BUGS WITH THE PROTECT+ SYSTEM

Rentokil's PROTECT+ System is an integrated approach that allows for a rapid response and resolution to bed bug issues in hours, rather than days. It's a smarter, faster way to protect people and your reputation, reduce disruption and revenue loss, and get peace of mind.

The PROTECT+ System uses a proprietary mix of targeted service protocols, precise applications, and specialized products to eliminate bed bugs and provide you with ongoing protection. **With the PROTECT+ System, tenants can get back to living their life and you can get back to business in no time.**

TAILORED COVERAGE FOR YOUR BUSINESS

Because every business is unique, we offer three packages to provide tailored coverage for your property: Protect+ Essential, Extended, and Premium.

Our Extended and Premium packages provide added benefits that offer additional layers of protection, including extended warranties, to keep biting bed bugs from disrupting the lives of your tenants and your business.

	Protect+ Essential	Protect+ Extended	Protect+ Premium
Rapid response: Same day or 24-hour treatment response	✓	✓	✓
Number of visits required for initial service	1	1	1
Initial preventative precision treatment to units without activity	✗	✗	✓
Regular service visits annually	✗	✗	2 (scheduled every 6 months)
Activated box spring liners for ongoing protection (These impregnated liners work to kill bed bugs on contact for up to 2 years)	✗	✓	✗ Liners available for purchase separately
Warranty	30 Days	90 Days	Unlimited inspection and retreatment on a 1-year contract
4-hour post-treatment turn around time	✓	✓	✓

Get protected from bed bugs.
